P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

The accompanying 37 CFR 1.53(b) Application is a continuation of Parent Application: Serial No. 10/356,086, filed 30 January 2003, still pending. The Parent Application (Serial No. 10/356,086) will NOT be abandoned.

## For the Specification

The specification in the 37 CFR 1.53(b) Continuation Application was modified by adding a sentence in the "RELATED PATENTS" section on page 1 indicating that the present application is a continuation of its parent application, Serial No. 10/356,086. In addition, the specification was modified in the paragraph beginning on page 8, line 20, to correct a minor typographical error. The modification on page 8 corresponds with the modification to the specification made in the 14 April 2003 Preliminary Amendment filed in connection with the Parent Application (Serial No. 10/356,086). No new matter is being added.
